

# Dry Shampoo List of Ingredients

*Easy to use while on the go!  
Compact for travel & outdoor adventures  
After workouts & when you are pressed for time*

The combination of powders and clay used in our Dry Shampoo will naturally absorb excess oils while offering healing benefits for hair and scalp. All-natural formulation volumizes and makes your hair look freshly washed.

## ARROWROOT & RICE POWDER

Combined, both powders will make the hair feel silkier and softer while acting as an absorbent for any excess oil. Arrowroot promotes the healing of inflamed skin and helps lessen scalp irritation. Rice powder is known to strengthen and smooth hair by reducing frizz. It helps repair damaged hair due to its high amino acid content, working intensely to nourish the scalp and hair follicles. It also improves hair elasticity resulting in less breakage and hair loss.

## ANDEAN CRYSTAL SALT

This unique salt comes from an ancient ocean trapped underground at 10,000 feet in the Andes Mountains in Maras, Peru. The many hues of pink, red and white are an indication of this salt's rich and varying mineral and energy-rich iron content. Andes Salts provide 84 biologically active minerals easily assimilated by the cells, helping to improve electrolyte balance in the internal fluids, especially the blood. Andean salt may assist in stimulating the drainage of toxic material in the brain, which can improve memory loss and brain fatigue (resultant of hair care products containing chemicals). Our unadulterated ocean salts can contribute to skin detoxification as well as help treat inflammatory conditions such as scalp psoriasis and dandruff.

## BENTONITE CLAY

- ▶ **Hydrates the hair and scalp:** It helps with dry, irritated, or flaking scalps, in addition to conditions including psoriasis and seborrheic dermatitis. Bentonite clay has the ability to clarify without drying out the scalp. It can also create a protective barrier or help heal minor wounds, so you can experience a little relief from itchiness.
- ▶ **Eliminates dandruff:** According to experts, bentonite clay is negatively charged, and therefore, attracts positive ions in products thus, lifting and removing debris from the scalp and hair. It is highly beneficial in eliminating dandruff and is also antimicrobial, antibacterial, and anti-fungal.
- ▶ **Strengthens the hair follicle:** Not only does it wash out toxins, but bentonite clay also keeps follicles clean and clear while building hair strength and vitality—to eliminate breakage and support the continued growth of healthy, thick, more vibrant hair.
- ▶ **Controls frizz:** According to hair experts, bentonite clay can help control frizz. The ingredient benefits people in particular whose hair is of a specific composition and is both delicate and more susceptible to breakage.

## CRYSTALS

Crystals vibrate frequencies and offer a crystalline affect on products. The crystals are also intended to keep the powder from clumping in moist, damp areas such as the bathroom.

*Tip: Once you are done with your dry shampoo, remove crystals from the shaker. Purify the stones by placing them a clear glass of water and then bathe them under the moonlight. With the gem-infused water, rinse your hair to give it some crystal energy love. Reuse the crystals by putting them in into the earth of a plant's soil. Following are a few suggested stones that can be added:*

**Green Aventurine** helps to prevent hair loss as the green energy is known to stimulate growth. This stone offers to brighten dull looking hair by improving its texture. Use Green Aventurine to bring good luck, new opportunities and increase receptivity to abundance in all areas.

## ORGANIC ACTIVATED CHARCOAL (In Medium & Dark Dry Shampoo only)

Activated Charcoal helps remove the sebum and deep cleanses the pores to let your hair breathe. It unclogs the pores in your scalp thus detoxifying the follicles. The buildup of dust, dirt, oil and sebum that sits on your scalp can hamper your hair's quality and affect its growth. Activated Charcoal helps cleanse, these impurities, draws our sebum and clarifies oil buildup. This leaves the skin on the scalp free and lets your hair breathe at the root, thus promoting hair growth.

## ORGANIC CACAO POWDER (In Medium & Dark Dry Shampoo only)

Contains protein and an extremely high level of antioxidants, which also help the scalp to grow longer, stronger and healthier hair. Using cocoa powder in our dry shampoo not only adds perfect dark tones to hair, but adds moisture, shine and volume to hair while promoting growth.

## FEATURES & BENEFITS:

- ♥ Instant Refreshing of Hair ♥ Soothe Scalp
- ♥ Neutral · Volumizing ♥ No artificial ingredients
- ♥ Cruelty-Free ♥ Zero Waste ♥ No Phosphates
- ♥ Container is 100% Recyclable
